

Digital TRANSFORMATION

Whether we like it or not, we live in a digital world. To stay competitive, businesses need to utilise technology to maximise efficiency and become more agile.

Do you want to:

- Create efficiencies in your processes?
- Generate capacity amongst staff?
- Ensure consistency of work?
- Maintain quality control?

Whether it's company-wide, or just one department, Ashton Wheelans can help you identify opportunities with a digital transformation review.

ASHTON WHEELANS

What we can do:

- Review current processes to determine where AI & Automation can be of benefit
- Risk assessment of current systems
- Infrastructure and support review
- Change management plan to manage the transition if implemented
- Staff skills review and upskilling opportunities

You will receive a report containing:

- Mapped processes and proposed changes to these processes
- Recommendations for implementation of systems
- Indication of the savings to be made
- Indication of how much capacity could be generated
- Projected Return on Investment
- Risk mitigation strategies
- Infrastructure and support requirements to ensure a stable system
- Change management plan to manage the transition if implemented
- Training plan
- Implementation plan
